

Devices allowed in class

You are required to bring a device to participate in my class sessions.

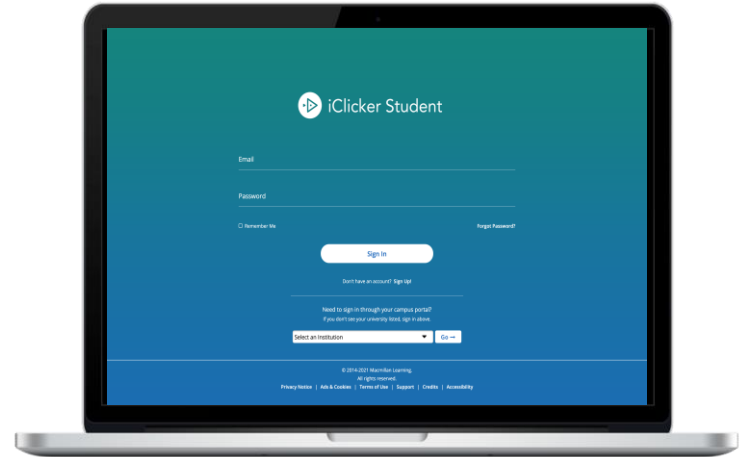

I will be allowing the use of the iClicker web app on a laptop/tablet, or the mobile app on a phone. The physical iclicker remotes (iclicker+ and iclicker2) will NOT be supported.

Create an iClicker account

You must create an iClicker account to ensure your grades are counted, even if you use a physical remote.

Select **Sign Up!** to create your account.

If you already have an iClicker account, just sign in! **Do not create and use more than one iClicker account** as you will only receive credit from a single account.

Set default institution

Enter **Rutgers University New Brunswick** as your institution when creating your account.

Select **Next**.

The screenshot shows a mobile app interface for creating an account. At the top is a blue header with a back arrow on the left and the text 'Create Account' on the right. Below the header is a white search bar with the placeholder text 'Find Your Institution' and a magnifying glass icon on the right. A red arrow points from the left towards the search bar. In the center of the screen is a blue icon of a classical building with four columns. Below the icon, the text reads 'Let's get started!' in green, followed by 'Find your institution to begin.' in teal. At the bottom center is a grey rounded button with the text 'Next'.

Complete your iClicker profile

On the **Create Account** form, fill out your:

- **First Name**
- **Last Name**
- **University Email**
- **ID = Rutgers NetID**

Create and confirm your password.

Select **Create Account**.

Create Account

Paying for access to the iClicker app

When you first create your iClicker account, you will have a **2-week free-trial period** for using the iClicker app to participate in my class sessions.

Before the trial period ends, you will need to purchase a subscription or [redeem your access code](#) in the **Subscriptions** section of your iClicker account. Access codes must be entered using iClicker through [your web browser](#), **not** the mobile app.

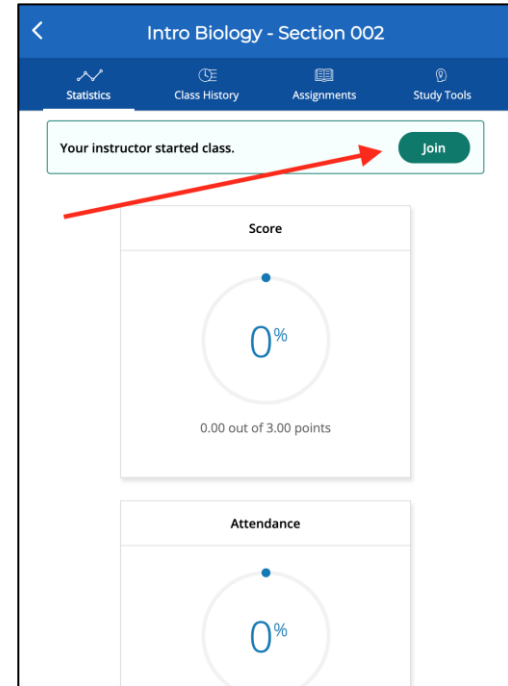

Now you're ready to go!

I will be running polling sessions in class.

iClicker Student App Users: When I start a session, you will see a button appear on your screen to **Join** my class. Click this button to start participating in my session for the day.

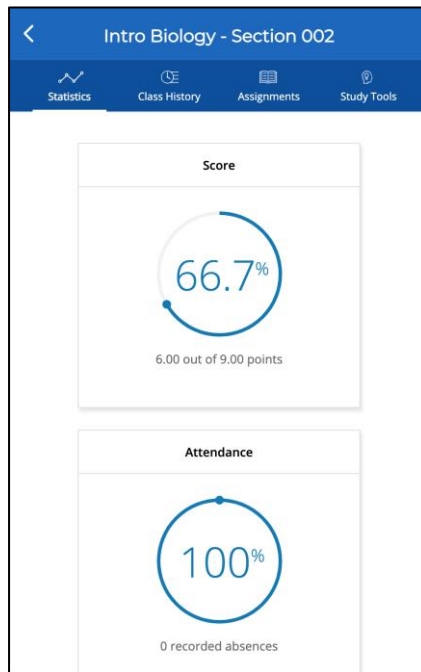

iClicker Remote Users: Make sure you are connected to my frequency: **[AA]**.

Track your performance and attendance after class

The main screen of iClicker shows your **Statistics**. Here you can access your performance and participation score for polls and/or quizzes. You will also see an overview of your Attendance.

Class History provides a detailed view of your individual session results, by date. You can select an individual session to view more details, including results and images of polling questions to use as a study guide.

The screenshot shows the 'Class History' screen for 'Intro Biology - Section 002'. It displays a list of activities for 'Jul 20, 2021'. The top bar shows a total of 6/6 pts. The activities listed are 'Class 2 - Quiz 1' (3/3 pts), 'Class 2 - Poll' (4/4 pts), and 'Attendance' (checked in at 4:35 PM).

Date	Activity	Score/Status
Jul 20, 2021	Class 2 - Quiz 1	3/3 pts
Jul 20, 2021	Class 2 - Poll	4/4 pts
Jul 20, 2021	Attendance	✓

Use iClicker to study

You can flag questions that we covered in class to add them to the **Study Tools** section of iClicker.

The Study Tools section allows you to review the material we covered in class as Flashcards or Practice Tests.
